EXPERIENCE

Project Engineer Mar 2023 - Mar 2024
Wipro *Pune, MH*

- Develop User-friendly Interface.
- Identify ways to improve design and development
- Work effectively with a collaborative team to identify and resolve the issues.

Angular May 2022 - Nov 2022
Freelancing *Bhopal, MP*

- Develop a loan application for a local client in Bhopal as a freelancer.
- Utilize Angular for frontend development.
- Implement Firebase as a backend-as-a-service for seamless data management.

PROJECTS

E-Commerce Web Application. "S KART" is a user-friendly and responsive Ecommerce Web Application developed with React. The application features intuitive product search, efficient product filtering by price and company name, seamless Razorpay payment gateway integration, and a streamlined "Add to Cart" functionality. Leveraging Firebase as the backend service, the project incorporates Firebase Authentication for secure user access, Firebase Database for data management, and Firebase Hosting for project deployment.

Frontend Project - HTML/CSS. The project I developed is a frontend project designed to improve my skills in HTML and CSS. The project involved creating a simple, yet functional webpage that showcases my understanding of HTML and CSS best practices.

Student Needs (Python Project). Student Needs is a desktop application; it is a multi-tasking application program. Here, you will get multiple applications in a single frame. Applications in our software are as follows: dictionary, study material, notepad, summary finder, calculator, etc.

CERTIFICATES

- Java FSD Certificate From Great Learning
- Project Completion Certificate From Wipro
